## FINANCIAL MANAGEMENT

The Post Graduate Program in Financial Management is unique in the following ways:

- Faculty are invariably experienced finance professionals with prior hands-on experience in the subject
- Periodic guest lecturers by domain experts
- Visits to financial market advisors and traders to watch live how share trading is done.
- Participation of students in corporate consultancy assignments.
- Stock market simulations and strategic management games are also scheduled regularly to enhance a student's ability to apply concepts.

The Finance courses will broadly stick to the following structure:

- Advanced Financial Management
- Corporate Accounting
- Security Analysis and Portfolio Management
- International Financial Management
- Financial Statement Analysis
- Project Finance
- Investment Banking
- Company Law
- Corporate Taxation
- Corporate Banking
- Financial Modeling
- Financial Institutions and Markets
- Tally (practical classes)
- Personal Financial Planning
